(UN)LIMITED Dutch Design **DMY**

Design in the Netherlands has developed rapidly, not in the least because of an open minded and experimental design mentality. (Un)limited Dutch Design celebrates the unlimited possibilities of design within the context of shared creativity, open technology and digital fabrication. Visitors can enjoy the (Un)limited Design Expo and participate in the second edition of the (Un)limited Design Contest or workshops during the (Un)limited Design Sessions. At the (Un)limited Design Talk the effects of open design will be discussed with experts and participants and visitors can write collaboratively for the (Un)limited Design Book.

www.unlimiteddutchdesign.nl

(Un)limited Design is a project of Premsel, Waag Society and Creative Commons NL.

(Un)limited Dutch Design is made possible by DutchDFA.
